## ON THE BORDER LINE.

President of United States Received  
Plaudits of Two Peoples.

### TWO AMERICAN FLAGS INTERTWINED.

Greetings From Porfirio Diaz of Mexico  
Courteously Responded to by  
McKinley—Women of the Party  
Enjoy a Jaunt to Juarez.

El Paso, Tex., May 6.—The American and Mexican flags were intertwined in the decoration of the plaza where the official greeting of President McKinley and his cabinet took place. The presence on the stand of General Hernandez, personal representative of President Diaz and the governor of the state of Chihuahua, gave an international significance to the event. There were thousands of Mexicans in the vast concourse of people to whom the president spoke, and their enthusiasm was almost as fervent as that of the Americans.

General Hernandez addressed the president on behalf of his president, expressing the latter's congratulations. President McKinley, in his response, paid a high tribute to the president of the Mexican republic, and charged the emissary to convey to the president of Mexico the warm regard and personal esteem of the president of the United States, with best wishes for the continued prosperity of the sister republic. The president's speech was especially notable on account of his injunction to the people not to be alarmed by imperialism. He said:

"There is no imperialism except the imperial power of the sovereign people of the United States."

The governor of Chihuahua also welcomed the president to the border. The exercises in the plaza were preceded by a military parade.

The women of the cabinet crossed the Rio Grande to Juarez, where they were tendered a breakfast by Juan Ochoa, a prominent Mexican banker. Mrs. McKinley did not attend the breakfast, but enjoyed a short drive during the morning.

At noon the presidential party resumed its journey westward. The next important stop is at Phoenix, A. T.

### Launching the Ohio.

San Francisco, May 6.—Mrs. McKinley will have the privilege of launching the battleship Ohio. After the simple ceremonies preceding the event, consisting of short addresses by President McKinley, Governor Nash and Irving Scott, Mrs. McKinley will press the button and the released ax will sever the rope just at the turn of the tide at 12:26 p. m. Just as Mrs. McKinley touches the button, Miss Helen Deshler of Columbus will break the bottle of wine over the bow and give the vessel the name of Ohio.

### Called Home by Death.

Raton, N. M., May 6.—When the Ohio special bearing governor Nash and party to San Francisco reached Trinidad Mrs. Randolph S. Warner left the train for Chicago, and will go thence to Painesville, O. She was called back by the death of her mother-in-law. Mrs. Warner is a sister of Miss Helen Deshler, who will christen the battleship Ohio in San Francisco. The Ohio party spent the afternoon at the hot springs baths at Las Vegas.

### Speculation Raises Death Rate.

Chicago, May 6.—In a report just issued the local health department attributes an increase in the death rate to the craze for speculation in stocks. The excitement occasioned either by losses or quickly gained riches, the report says, has proved dangerous chiefly to persons over 60 years of age. Of 566 deaths here last week 124 were persons 60 years of age or older. This is an increase of 26 per cent over the previous week, and of 24 per cent over the corresponding week of 1900.

### Dr. Kennedy's Third Trial.

New York, May 6.—The third trial of Dr. Samuel J. Kennedy on the charge of murdering Dolly Reynolds in the Grand hotel in this city, Aug. 16, 1898, began before Judge Newberger. Convicted on his first trial and sentenced to death, the dentist obtained a second trial, largely through the persistent efforts of his wife, and the jury disagreed.

### Died Together.

Chicago, May 6.—Locked in each other's arms, J. H. Halperin, 20, and his wife, to whom he was married a year ago, were found dead in their home at 219 Maxwell street. The couple had been killed by gas, and from a note found near the bodies it is believed they planned to die together.

### Haven't Had Time to Dig.

London, May 6.—Mr. Chamberlain, the colonial secretary, informed a questioner in the house of commons that no gold had been produced in the Transvaal since Jan. 1, but 50 stamps were started May 4 and 100 stamps started Monday.

## AMONG THE EMBERS.

Aftermath of the Tempest of Flame  
That Swept Jacksonville.

Jacksonville, Fla., May 6.—The body of Harry Bonnetheau, a real estate dealer, was recovered from St. Johns river. Mr. Bonnetheau's wife and son are supposed to be in New York city. The bodies of two negroes were also recovered. All are victims of Friday's disastrous fire. There are many rumors of loss of life, but owing to the departure of thousands of people from the city it will be impossible for several days to verify the reports unless the bodies are found.

The newspapers have been asked to print numerous notices of inquiry regarding whereabouts of the missing.

Mayor Bowden asks that all sightseers remain away from Jacksonville. The vast army of idle negroes is likely to cause some trouble. It is suggested that all negroes that will not go to work at \$1 per day and rations should be deported. Martial law continues to be rigidly enforced. The militia continues to patrol all parts of the city.

The Alcazar at St. Augustine, although closed several weeks ago for the season, has been reopened to care for the refugees. Other winter resort hotels will probably open, as the crowds leaving the city are being augmented daily.

Thousands of people have worked day and night. The firemen have not been relieved, because the debris is still burning, and streams of water are being poured into the flames and embers all the time, night and day.

An estimate of the total loss is as follows: Public buildings \$1,088,000; stores north side of Bay street \$495,000; stores south side of Bay street \$880,000; stores Forsythe street \$405,000; stores Main street \$309,000; residences, prominent, \$778,000; residences, 1,500 small, \$2,000,000; residence personal effects \$2,300,000; stocks of goods in stores \$1,630,000; stocks in 200 smaller stores \$550,000; street railways \$30,000; pavement \$100,000; total \$10,565,000.

### Warped by Wall Street.

Chicago, May 6.—Jamieson & Co. of 169 LaSalle street, one of the largest stock brokerage firms in the west, has suspended, being unable to meet its obligations on the New York Stock Exchange. Mr. Jamieson declared his belief that his firm could pay its creditors in full. Customers of the firm are said to have been short on the New York Stock Exchange, but were unable to produce sufficient margins to cover the advance of stocks. This threw the obligations of Jamieson on account. Funds which Mr. Jamieson fully expected to receive failed to reach him, with the result that he was compelled to close his doors.

### Ship Combine Not Completed.

New York, May 6.—The official statement promised in connection with the federation of the Union iron works of San Francisco, the Bath iron works of Bath, Me., the Newport News Shipbuilding and Drydock company of Newport News, and Lewis Nixon of Elizabethport, Me., was not made Monday. At the office of H. W. Poor & Co., who are financing the combination in connection with a group of bankers and brokers, it was said that the statement would be given out Wednesday. It was denied that there was any hitch in the plan of consolidation, the statement being merely that certain details were to be perfected.

### Buying in the Interurbans.

Detroit, May 6.—The Detroit United railway has purchased the Detroit and Northwestern Suburban trolley line, which runs between Detroit and Plymouth, a distance of about 30 miles. The price is said to be \$800,000. The owners will not receive cash, but an issue of 4½ percent bonds in exchange for their stock. It is said to be the purpose of the Detroit United Railway company to ultimately purchase all the suburban lines running into Detroit and reorganize as the Detroit United and Suburban railways.

### Texas Tour About Ended.

Texarkana, Tex., May 6.—Monday the committee of the New York Merchants' association and chamber of commerce passed through this city. Tuesday is the last day of their jaunt, and because of excessive heat the capitalists are glad to escape from further travel. At this point they were entertained by local committees of merchants. They left here for Paris and Sherman to inspect the cotton industries, closing the trip Tuesday night at Denison.

### Ohio Incorporations.

Columbus, O., May 6.—Carnahan Tin Plate and Sheet company, Canton, \$300,000; Marietta Casket and Mantel company, Marietta, \$25,000; Chusit Gum company, Cincinnati, \$10,000; Cleveland Automatic Machine company, Cleveland, \$25,000; Quinnesec Iron Mining company, Wickliffe, \$250,000.

### Strike at Genoa.

Genoa, May 6.—In consequence of a dispute regarding their hours of labor the dockmen have gone on a general strike, except at San Benigo landing.

## TO SLAY AND TO LOOT.

Shocking Crimes Committed in China  
By the Foreign Soldiers.

### LANCERS IMPALE CHINESE CHILDREN

Native Christian and Boxer Look  
Alike to the Troops of the Christian  
Nations—One Million Victims  
of the Allied Armies.

Washington, May 6.—The latest mail from China brought to the state department new proofs of the terrible and perhaps irretrievable conditions which exist under the foreign military rule in North China, involving a situation not hitherto fully realized even in Washington, and utterly unappreciated in the United States generally. The character of the information which has now come into the administration's possession is summarized in the following extracts from a communication written by one of the most trusted officials in the service abroad:

"The question of raising the indemnity, though one of the most serious for the Chinese government, is not paramount. All the people who are likely to know declare the Chinese peasant can stand no greater burden of taxation than in the past, so the question resolves itself largely to reducing the expense of collection, which in China involves radical reforms. Another proposition for meeting the indemnity is to grant lucrative mining and industrial concessions to foreigners, but that means bartering their independence and laying up endless trouble for the Chinese, who are quick to recognize the fact. If the whole horror of the murder and pillage done between Tien Tsin and Peking comes to be understood in the United States and in Europe, the sum of it is so great, compared to the number of Christians who have suffered at the hands of the Chinese, that, rightly or wrongly, the Chinese are likely to be held the injured party. Lancers wantonly impaling little children by the wayside in the streets of Peking are some of the least of the well-authenticated horrors, and to some foreign soldiers a dead Chinese Christian is just as satisfactory evidence of no quarter as a dead Boxer; they neither know nor care for such trifling distinctions. The allies, even if they could agree, could not set up an administrative machinery of their own for the empire. They must restore the power to some native party, and the quicker they do it the better for China. The Chinese estimate that 1,000,000 of their people have lost their lives by violent deaths or starvation about Peking and Tien Tsin since the allies came. Well informed foreigners, long resident here, do not regard the estimate as exaggerated."

The North China News of March 28, endeavoring to tell why such a situation as is alleged can exist, says: "Simply because Chinese civil authority has been suppressed, driven away, and nothing substituted for it. The country between the sea and Peking has been devastated and the people have been killed indiscriminately or driven out of their homes to become bandits. We should have thought that one of the first acts of the foreign administration after Peking was relieved would have been to strengthen the Chinese civil authority and make it responsible for the preservation of order. But what magistrate can be expected to remain at his post and exert himself to put down opposition to foreigners when at any moment a foreign lieutenant with a handful of troops may come to him and demand a sum of money on pain of having his town or village burned if refused?"

### Cancer Specialist Inoculated.

San Francisco, May 6.—Dr. Joseph Eisen, the California scientist, whose discovery of the cancer germ was a notable event in the medical history of last year, has been attacked by cancer. He submitted to an operation at St. Luke's hospital, and the surgeons state that he is rapidly recovering, although nothing as yet can be determined about the final result. Dr. Eisen believes that he became inoculated with the cancer microbe while studying the germs through the microscope.

### Work of Lutheran Women.

Washington, May 6.—The Women's Home and Foreign Missionary society of the Evangelical Lutheran church of the United States adjourned to meet at Pittsburgh in 1903. Resolutions adopted provide for the co-operation of the society with other women's missionary boards and for sending a delegate to the meeting of the general Lutheran synod at Des Moines, Ia.

### Railway Catastrophe.

Ottumwa, Ia., May 6.—Passenger train No. 3 on the Burlington road struck a construction train at Thayer while running at full speed. Five persons are reported to have been killed and about 50 injured.

## HEIR APPARENT IN AUSTRALIA.

Royal Visitors Given Royal Welcome  
To the Kangaroo Capital.

Melbourne, May 6.—The Duke and Duchess of Cornwall and York have landed from the steamer Ophir. The royal visitors were received by Lord Hopetoun, governor general, and the state and federal ministers.

After the ministers had been presented the party passed down the carpeted pier and entered carriages, surrounded by a guard of honor composed of Victorian troops just returned from South Africa, and proceeded a distance of seven miles through brilliantly decorated streets bordered with almost continuous lines of stands filled to their utmost capacity. The entire route was lined with demonstrative crowds, and the decorations, arches, Venetian masts and columns along the line of march were very effective. Opposite the Town hall the procession passed beneath the queen's arch, canopied with royal colors and sheltering a golden statue of Queen Victoria. The drive terminated at Government House. It is estimated that there are 80,000 visitors in Melbourne. There were 12,000 troops in line.

### Home Rule Party Split.

Honolulu, April 27, via San Francisco, May 6.—The home rule movement is dead, according to the statements of its former most ardent supporters. There is no party whip, no leadership, no organization. The legislative sessions began with a solid home rule majority of more than two-thirds in the house, and almost that much in the senate, but votes taken at the present time show only a few home ruleers are hanging together as such. The Republicans also have split on various questions, and the present situation in the legislature is one in which party questions seldom occur.

### New German Cabinet.

Berlin, May 6.—The ministry is gazetted as follows: Baron Rheinbaben, minister of finance; General Poddiebski, minister of agriculture; Baron von Hammerstein, district president of Metz, takes the portfolio of the interior; Herr Moller, minister of commerce; Herr Kraetke, director of the imperial postoffice, becomes secretary of state for that department.

### Americans Held Captive.

London, May 6.—Replying to a question in the house of commons, Mr. Brodrik, the war secretary, said that among the prisoners captured in South Africa were 26 Americans, besides 12 others claiming to be burghers. There was no intention of releasing any of the prisoners until the war is over.

### Turkey's New Financier.

Constantinople, May 6.—The minister of finance, Reshad Pasha, has been relieved of his post and is succeeded by Zuhdi Pasha, minister of instruction, who will temporarily fill both positions.

### New Canal Treaty.

London, May 6.—It is officially stated that Lord Pauncefoot has received from Secretary Hay the draft of a new Nicaragua canal treaty. It is understood that it advises neutrality.

### Roundup of Firebugs.

Macon, Mo., May 6.—Six men and one woman are charged with direct complicity in the recent series of fires in the southern portion of Macon county with the object of swindling insurance companies. Five arrests have been made. Among those arrested are Grant Gipson, a well known farmer and stock raiser of the Ardmore neighborhood; Leroy Summers, son of a farmer; Milton Summers, a relative, and W. T. Donovan, a coal miner. In the possession of Prosecuting Attorney White are confessions signed by Donovan, John Province and the latter's wife which, it is alleged, prove the existence of a conspiracy to defraud insurance companies. Warrants have been issued for the arrest of Province and his wife. It is estimated that their depredations have already cost insurance companies \$40,000. They have so terrorized the neighborhood of Ardmore, a coal mining town in the southern part of the county, that the honest farmers dare not appear against them, or even refuse to sign their bonds, for fear that their own barns, haystacks, or even homes, may be reduced to ashes. Practically all insurance companies have retired from the field in that part of the county.

### Japs Want a Perry Monument.

Berkeley, Cal., May 6.—Professor Bankato Bankero, president of the Bei Yu Kyo Kai, the American Association of Japanese, has asked the assistance of the University of California in arousing public interest in the movement to erect at Kurihama a monument commemorative of the landing of Commodore Perry half a century ago. A considerable fund has already been raised, and it is expected that the monument will be unveiled July 14, which is the anniversary of the landing of the American envoy.

Democratic central committee of Franklin county formally endorsed James Kilbourne for governor of Ohio.

## FOR THOSE WHO LABOR

News Garner'd From Field of Toil  
To Enlighten the Masses.

### VITAL ISSUES TO BRAIN AND BRAINS

Prospects Are That Britain's Coal  
Pits Will Be Closed on Account of  
Coal Tax—Labor Organizations  
Hold Important Meetings.

London, May 6.—The final decision in regard to shutting down the pits will rest with the national conference of miners' delegates to be held in London Tuesday. The majority of the local councils that have taken a definite stand favor a stoppage, but there are many opponents of this course.

Delegates of the National Federation will be able to review the whole situation in the light of the debate in the house of commons Monday night. The consensus of opinion leans to the belief that the conference will order a cessation of work.

A delegatorial meeting at Cardiff, representing 170,000 miners adopted a resolution to give the London conference a free hand.

### Strikes in Italy.

Paris, May 6.—Dispatches from Palermo, Naples and Foggia report an alarming situation in Sicily and south Italy. The peasants in the provinces of Messina, Catania and Syracuse are in perpetual revolt and sanguinary conflicts with the police occur almost daily. The region in which the sulphur mines are situated are agitated, and a general strike is threatened. Misery prevails in the province of Pouilles. The fields and gardens are lying waste, the municipality has suspended payment, and the syndic has gone to Rome to confer with the premier. Strikes are extending in south Italy.

### Watch Trust Projected.

Waltham, Mass., May 6.—It was stated in watch manufacturing circles here that a syndicate is making an effort to absorb the American Waltham Watch company's plant here and also the factory of the Elgin company at Elgin, Ills. President Fitch of the American Waltham company left for New York, where there is to be a conference concerning affairs in the watch manufacturing line.

### Textile Workers Meet.

Holyoke, Mass., May 6.—The International Union of Textile Workers met here in annual convention, with 60 delegates present, representing the textile centers of the north and from North Carolina, South Carolina, Kentucky, Alabama and other southern states. Several of the delegates from the south are women. The afternoon session was principally devoted to routine business.

### Tin Plate Workers.

Cleveland, May 6.—The annual convention of the Tin Plate Workers' International Association of America was called to order here with about 40 delegates present. The first session was devoted to the reading of reports of international officers, after which the work of preparing the new wage scale was taken up. The present scale expires July 15.

### Union Men Were Discharged.

Pittsburg, May 6.—A strike among the machinists employed at the pressed steel car works in McKee's Rocks was officially declared Monday. The dispute was caused by the discharge of six machinists, who, it is alleged, lost their positions through their affiliations with a union that is being organized among them.

### B. R. T. Convention.

Milwaukee, May 6.—The fifth biennial convention of the Brotherhood of Railway Trainmen convened here and will continue in session two weeks. The principal business to come before the gathering pertains to changes in the constitution and matters affecting the insurance branch of the order. The sessions are secret.

### A Remarkable Rumor.

New York, May 6.—There was a rumor afloat in Wall street, which was an expansion of the recent consolidation rumors, to the effect that all the contesting railroad interests had come to a compromise, and were about to consolidate all the leading railroad systems of the country.

### Italian Immigrants.

New York, May 6.—According to cables and forecasts by the steamship companies 40,000 Italian immigrants will have arrived in the United States by the end of May. The Italian immigration so far this season is a record breaker.

### Plasterers Strike.

Cleveland, O., May 6.—The union plasterers of this city struck for \$3.50 instead of \$3 per day, and also a weekly payday. Several contractors have already granted the demands.

## **MUNICIPAL ELECTRIC PLANTS.**

Ten years ago the Legislature of Massachusetts passed a law permitting the purchase or construction of electric lighting plants to be operated under municipal control. Since then eighteen municipal electric plants have been established in as many towns, with population varying from 1,000 to 27,000.

"In regard to these recent municipal enterprises," says the Philadelphia Record, "it has been shown by expert testimony before the Industrial Commission that they have been more profitable than the great majority of private plants in cities and towns of the State. Fourteen public electric plants operated in as many towns yielded net profits of 12.3 per cent., while in forty-three towns served by private electric companies the return on the amount invested was only 6.4 per cent. In order to arrive at this result, the expert investigators credited the town with full commercial value for every light devoted to public service; yet even with this factor eliminated the plants under municipal control showed a considerable excess of profit over those of private companies. This is scarcely surprising, in view of the peculiar conditions of electric service—which inexorably exact perfection in equipment—and of the craze for stock-watering that has rendered so many private companies of this class a prey to rascals of every degree."

Mayor Stallcup's report of license collected during the month showed \$143.20.

Permits were granted as follows: The Tiger Shoe Manufacturing Company; to build a coal bin in alley in rear of the factory.

John L. Caldwell; to build a stable on lot on Second street, Sixth ward.

W. B. Mathews & Co.; to erect an addition to west end and south side of the "Frederick carpenter shop" on Commerce street.

Samuel Mundy; to build an addition to his residence on Third street, Sixth ward.

A petition signed by twenty-eight citizens of the Fifth and Sixth wards was presented, asking Council to take some action in regard to the pond east of Union street and south of the C. and O. railroad. They claim this pond is a menace to the health of the neighborhood, as at certain seasons the smell from it is very offensive. The matter was referred to the Board of Health.

The claim of Dr. Shackelford for \$50 for services in smallpox cases in November and December was allowed. The Chairman of the City Board of Health was ordered to not employ any physician or other person hereafter without proper authority.

The saloon license of F. L. Stokes was transferred to C. Schuler, agent for Harry Power.

R. B. Lovel and M. A. O'Hare, elected Supervisors of Tax at the last meeting, tendered their resignations, which were accepted. H. L. Newell, the other member, was also unable to accept, as he will be absent from city the week the Board is to meet. J. H. Rains, F. Devine and J. B. Burgess were then elected as members of said Board.

The Board of Education presented an estimate of its probable receipts and expenses the ensuing year and asked for a levy of 25 cents on the \$100 from the city for school purposes. Outside of the city levy, the probable receipts will be: From State \$3,500, fines \$250, tuition \$150, and county \$4,000; total \$7,900. Probable expenditures: Teachers \$13,000, Janitors \$630, insurance \$150, supplies \$1,000, buildings \$750, taking census \$80, salaries \$350; total \$15,960.

The ordinance regulating the construction of sidewalks and pavements, curbing and gutters was adopted by a unanimous vote. It goes into full details and gives property holders the option of using paving brick, freestone or concrete.

An ordinance was introduced ordering

the construction of a pavement on the north side of Second street, from Lower or Schultz to the West End of the city. All property holders are to put the pavements down within thirty days of the adoption and publication of the ordinance, the cost of same to be prorated according to front foot, this cost to be a lien on the property until paid. The ordinance went over until next meeting.

The rules were suspended and an ordinance adopted regulating the mooring of houseboats on river shore in city limits.

An ordinance regulating the erection of buildings was adopted under a suspension of the rules.

The committee to whom the Public Library question was referred some time ago presented the following report which also embodies the legal opinion of Judge A. M. J. Cochran and City Attorney Wood:

The Maysville and Mason County Library, Historical and Scientific Association owns the real estate on the west side of Sutton street, between Second and Third, this city, and \$14,440.00 subject to the life estate of Mrs. Mary A. Bray, and \$6,550 subject to the life estate of Mrs. Catherine Rice. No use of the personal property can be made during the life of the life tenants. The real estate, in the discretion of the association, can be sold and proceeds invested and held for the purpose of maintaining a public library and historical and scientific society, and on the death of the life tenants the personal property can likewise be so devoted.

The city of Maysville has power to establish, maintain and regulate a local public library and make subscriptions, donations and gifts thereto. It is desired and it is possible to bring these two availabilities into union and to establish one institution. Two methods have been suggested. One is to purchase the convent building and locate and establish the library there. This can be done by the city. But in order to raise the means to do so, the question will have to be submitted to a vote of the people and carried by a two-thirds vote. If this is done, the real estate on Sutton street, owned by the association, can be sold and its books and other movable property removed to the convent building, and the revenue from the proceeds of the real estate, and from the personal estate, on death of life tenants, can be devoted to the maintenance of a public library and historical and scientific association. The Greenwood Library can also be moved there and the revenue derived from the Greenwood Fund likewise devoted. The city can also devote annually a sum of money to the maintenance of a public library in that building.

The other method is to continue the library on Sutton street and for the city to devote a certain sum annually to the maintenance of a public library there. This can be done without submitting the matter to a vote of the people, and the management of the library can be entrusted to such agency under such rules and regulations as the city and management may agree upon. Such sum must be specified in the annual levy. Such, in our opinion, is the legal aspect of this matter and it will have to be disposed of in one or the other of the two ways suggested.

We, your committee, recommend that the purchase of the academy building known as the convent property be submitted to the voters of the city of Maysville.

The report was adopted. It was stated that the convent building could be purchased for \$10,000. The matter went over till next meeting.

Two emergency bonds, each for \$500, were ordered sold to provide funds for current expenses.

The City Assessor's books were reported returned to the City Clerk.

City Clerk Daulton was granted leave of absence for three days.

A car-load of vitrified brick were ordered purchased for crossings.

The committee engaged in revising the city laws and ordinances was authorized to receive bids for printing 100 copies of same, twenty-five copies to be bound in calf and the remainder in board, and report to Council.

The King's Daughters of Episcopal Church were refunded \$3 license paid for an entertainment in April.

The question of improving Lower street, south of Second, was referred to Committee on Internal Improvement and the Mayor, with power to act.

Complaint was made as to the dangerous condition of the old brick buildings on southeast corner of Front and Wall. The matter was placed in hands of the Mayor, who will likely order that they be torn down unless the owners repair them. In their present condition they are liable to tumble down and kill some one.

## **He Is a Wonder.**

All who see Mr. C. F. Collier, of Cherokee, Iowa, as he is now, cheerful, erect, vigorous, without an ache, could hardly believe he is the same man who, a short time ago, had to sit in a chair, propped up by cushions, suffering intensely from an aching back, in agony if he tried to stoop—all caused by chronic kidney trouble, that no medicine helped until he used Electric Bitters and was wholly cured by three bottles. Positively cures backache, nervousness, loss of appetite, all kidney troubles. Only 50c. at J. Jas. Wood & Son's drug store.

# **THE CARPET SECTION**

Perhaps you'll need a new Carpet this spring. If so you'll surely want to see our display—the largest and best ever offered in this city.

A splendid assortment of new spring patterns in all-wool ingrain, prices ranging from 25c. to 65c. a yard.

Wiltons, tapestries, moquettes, velvets and body Brussels—a line bound to please you.

Our Mattings have just been strengthened by the arrival of 100 bales of new stuff. A magnificent showing ranging from 12c. (cheaper matting represents wasted money) to 50c.

In Carpets, just like other lines of merchandise, the buyer is at the mercy of the seller. Few carpet buyers know carpet values. Qualities are hard to carry in the eye. It's this fact makes us use the greatest care in selling Carpets. If you are a Carpet customer here it is your privilege to know everything about the Carpet you are buying.

We've gone to the depth of things in Carpets and it's our pleasure to protect you as to qualities.

### A DOUBLE FUNERAL.

Mr. Harrison Bramel Passes Away. His Death Closely Following That of His Daughter, Mrs. Laura Murphy.

Mr. Harrison Bramel, a well known farmer, died at noon Monday at his home on the Fleming pike, a few miles from this city, of softening of the brain. His daughter, Mrs. Laura Murphy, lay dead in the house at the time, she having passed away Sunday evening, after a lingering illness, of consumption.

Mr. Bramel was seventy-eight years old, and is survived by his wife, three sons and four daughters.

Mrs. Murphy was thirty-eight years old, and leaves two daughters. Her husband died four years ago, while they were living near Flemingsburg.

The double funeral took place at 9 o'clock this morning and the remains of the father and daughter were taken to Mt. Gilead for burial.

Mr. Harry Owens has been requested by the U. S. Bagology Department to forward specimens of the new and voracious insect described elsewhere in the firm's advertisement. Harry is conducting a private research over the carcass of the only one of the tribe in his possession, but will take pleasure in sending to the department any collection he may accumulate in the next ten days. Friends can render valuable assistance by sending him some of the choicest specimens found in their neighborhood.

Mr. Walker Whiteside's engagement in this city ought to call forth one of the largest and most fashionable audiences of the season. "Heart and Sword," Mr. Whiteside's new romantic comedy, will be the offering. So much success has attended the production of this play that Mr. Whiteside has found it difficult to prevail upon managers to accept any other play in his repertoire with, of course, the possible exception of "Hamlet." It is said that "Heart and Sword" is replete with bright comedy and that the dramatic situations are thrillingly interesting. The supporting company, it is said, is one of the strongest on the road.

### NEIGHBORHOOD NEWS.

#### Items of Interest Contributed by Our Country Correspondents.

ORANGEBURG, May 6th.—Hord Long was the guest of Dr. Hord last Sunday.

Mrs. Thomas J. Heflin was sick during the past week.

Dr. John King, of Maysville, was visiting friends here the past week, leaving for home Tuesday morning.

Prof. L. C. Grimes and Postmaster Grant Wilson took several wild and woolly North Fork fish Wednesday.

Road Superintendent Luttrell was out last week measuring stone, preparatory to paving the breakers.

The orchards on the adjacent heights are bouquets of beautiful blossoms. Fruit prospects were never better. Jack Frost, mind your eye, and give us the go-by.

Mrs. Lydia Bramel, of Paris, is here visiting the old home place. Joseph Bramel will come down from Paris to vote at the primary, when they will return home.

Grant Wilson and son Duke paid a business visit to Cincinnati the past week.

John and Charles Grant are known as the most expert sheep shearers in the county.

Master D. Grant, son of Charles and Alice Grant, was visiting friends in the 'burg Sunday. He reported fishing first-class at the mill dam near his home.

Rain is badly needed, as the ground is so baked that in many instances proper preparations for planting cannot be made.

Charles Roe was first in the field Saturday shearing his sheep.

There is talk of a reservoir on a neighboring hill, with pipes to distribute water throughout the village for fire protection. Whether the plan is feasible or not will be found out later on.

Dr. Hord's fast horse gained several seconds on his former record the past week.

Mama Collis will light his store with three of the air-pressure gasoline lamps.

Gardening is progressing slowly. The ground a foot below the surface is cold and damp.

Charles Calvert removed his engine from the Collis tract, where he has been sawing for months past, to the Wilson log yard in the 'burg Friday afternoon. He began sawing Tuesday. He will

have work all summer in the immediate neighborhood.

Uncle Dave Bullock killed the biggest, fattest, longest blacksnake last week you ever heard of. This is a fact; if you don't believe it go down and see his skeleton lying on a stump.

George Sedden has a shepherd dog which can drive cows better than a boy could, if he wanted to. When she and her little one were brought to the store from the home place, nearly five miles away, she disappeared one night, and puppy likewise, and was found in the old familiar stable with a downcast, deprecating look, wagging her tail, with puppy cuddled by her side.

It is a very noticeable and unpleasant fact that in the forests of oak timber hereabouts nearly every one of the trees is dead at the top. Limbs that have been broken by storms have allowed moisture to percolate through and in some cases render a great portion of the trees useless for lumber. It is a foregone conclusion that the sooner they are cut down the better quality of lumber the owner will have.

The acoustic properties of the new Methodist Church are very bad. The sharp pitch of the roof and unusual height of the ceiling allows the voices of the speakers to rise too high and reverberate so as to make the words at times unintelligible. A sounding board above the pulpit, throwing the sound lower down would remedy this defect.

Uncle Billy Roe has sold an acre lot on Mt. Carmel pike, near the 'burg, to Peter Moody blacksmith, for \$100. Mr. Moody is now building a house and shop. That's business! Because folks are anxiously seeking locations here is no reason why prices of lots should be raised beyond the reach of many. If you have a tract of land adjacent to our village, sell a portion in lots to bonafide builders at reasonable prices. There is no surer way of increasing the value of the remainder of your land.

A wave of religious enthusiasm sweeping all before it has settled on our erstwhile quiet village. Mrs. Harrod, a small, unassuming lady, seems to be doing good work. She holds services afternoons and evenings in the Methodist Church. Citizens of this place and farmer folk for miles around have attended every meeting she has held. A survey loaded with Maysville folks were out Friday. She is a very fluent speaker, with the contents of the Bible at her tongue's end, and seems to be terribly in earnest. But the climax of each meeting is what draws curiosity seekers. She dances a jig, waltzes around, and ends in a sudden fall, remaining

in a trance profound and deathlike for hours. While in this state of lethargy she does not seem to breathe; her eyes are wide open and fixed. When she falls the congregation is dismissed, only a few of the brethren and sisters remaining until she returns to consciousness, which she does in a state of collapse and is taken home in a buggy. She certainly possesses a mysterious power which none of her hearers have as yet been able to fathom. One man remarked after the usual denouement that she was like the cow that gave a full bucket of rich milk and then kicked it over. She is from Ohio and according to her story a former Catholic. Her husband secured a divorce from her because of her religious enthusiasm. He retained possession of her two children. Unable to obtain possession of her little ones she prayed that they might die, and they did shortly afterward. She sells copies of her photograph at each meeting to aid in paying her expenses. At Mt. Carmel she was presented with a purse of \$100 and also with \$150 at Tollesboro. It is said she says in her experience that her style of religion was distasteful to all of her relations. It is said by those who have heard her, that she went home from church and was seized with religious ecstasy on her way, shouting, dancing and falling along the street. When she arrived at home breathless, she threw herself at her grandmother's feet and asked her if she didn't want to get religion. "Yes, child, but not the kind you have," was the answer. Some irreverent persons go so far as to say that at services which she held in a large barn in the mountains, she danced clear around the room exhibiting wonderful grace and agility. A stalwart mountaineer in the audience it is said, remarked: "If she does that a way again tomorrow evening she won't be without a partner." Sure enough the next evening she repeated her terpsichorean evolutions and as promised he joined her and danced with her. She doubtless possesses hypnotic powers which gives her control over persons of less nervous strength than herself.

#### PATRIOTIC BLOSSOMS.

The red bud and the apple tree, I said,  
Together they're a pretty sight;  
The red bud with its flowers of red,  
The apple tree with blossoms snow white.  
And on the grass green ground below,  
The violet blue uplifts her face;  
The three tints make a goodly show,  
A combination full of grace.  
Red, white and blue, time-tried and true,  
Our country's emblem grand  
Right here we find, deftly outlined  
By Nature's cunning hand.

## 1,000,000 WOMEN RELIEVED

Reports received show that Wine of Cardui has brought permanent relief to 1,000,000 suffering women in the last few years. Because of Wine of Cardui, thousands of sufferers, seemingly on the way to premature graves, are now healthy women taking an active interest in the duties of life. Mrs. Mitchell was declining in health when Wine of Cardui "performed a miraculous cure" in her case. She suffered terribly with the agonies of falling of the womb, leucorrhoea and profuse menstruation. The weekly appearance of the menses for two months sapped her vitality until she was little better than a physical wreck. Her nervous system gave way under the terrible pain and aggravation. Then came the trial of Wine of Cardui and the cure. Mrs. Mitchell's experience ought to commend Wine of Cardui to suffering women in words of burning eloquence. The Wine is within the reach of all. Woman who try it are relieved. You can get as much benefit as Mrs. Mitchell received. Ask your druggist for Wine of Cardui. Send to the laboratory for the medicine if he tenders you a substitute.

## WINE OF CARDUI

South Gaston, N. C., May 29, 1899.  
Wine of Cardui and Theodor's Black-Draught have performed a miraculous cure in my case. I have been a great sufferer from falling of the womb and leucorrhoea, and my menses came every week for two months and became very painful. I was in a bad condition. My husband induced me to try Wine of Cardui and Black-Draught, and now I have no pain. The leucorrhoea has disappeared and now I am in perfect health. Mrs. WILLIE MITCHELL.
